

People Loving People – Original Lyrics

(Originally by the Garth Brooks)

Doctor, you ain't got a pill
For whatever's makin' this world ill
You can't get forgiven inside the store
And peace, it's a politician's war

You won't find no resolution in
The bottom of the bottle
In the stars, or Aristotle
The only answer to the problem

Is people loving people
That's the enemy of everything that's evil
Ain't no quick fix at the end of a needle
It's just people lovin' people

Words aren't what they seem to be
And talk is cheap, but lies are free
We fear what we don't understand
And we been scared since time began

All the colors and the cultures
Circle 'round us on a spindle
It's a complicated riddle
The solution is so simple

It's people loving people
That's the enemy of everything that's evil
Ain't no quick fix at the end of a needle
It's just people lovin' people

You can pawn it off on kings and queens
And those behind the curtain
Say I can't make a difference
In a world so full of hurtin'
But I believe the remedy
Starts right here with you and me

People loving people
That's the enemy of everything that's evil
Ain't no quick fix at the end of a needle
It's just people lovin' people
It's just people lovin' people
