

READ ME FIRST – YOU HAVE BEEN WARNED

Sweet Caroline, by Neil Diamond is a great song that has never been made in to a square dance song after all these years. WHY? I'm glad you asked.

WHY? Because it's a TOUGH song to fit in to the standard square dance pattern we're all used to with our music. In order to make it danceable, adjustments to timing and feel had to be made. These were simply unavoidable. Fortunately for you, I give away the entire vocal, so I'm sure you listened all the way through before you bought, and you knew what to expect.

HOWEVER, in the spirit of compromise, Bear and I have included an EXTENDED closer that more clearly represents the full chorus, including the time for the audience to respond in those famous places. PLEASE BE AWARE...the closer on the EXTENDED cut is NOT the standard 64 beats you are used to, so you'll have to adjust your timing accordingly.

Please enjoy this well-known anthem!
